

Hirro Mac Joseph Kuizon

Content Systems | Community & Growth Operations | AI-Assisted Execution

Philippines · Remote · Part-time & fractional engagements

hirro.kuizon@gmail.com · linkedin.com/in/ngirro

PROFILE

Content and marketing operator with six years supporting NVIDIA GeForce Philippines through First Tier Brands. Experience spans editorial planning, community programs, influencer coordination, field campaigns and stakeholder reporting. Builds practical content and operating systems for lean teams, using AI agents and code-assisted tooling for research, production, QA, publishing and monitoring while keeping human judgment at consequential release points.

PROFESSIONAL EXPERIENCE

Independent Digital Marketing, Content & AI Systems Operations

2023–Present · Remote

- Client and independent work across SEO content, website updates, reporting, media production and AI-assisted operating workflows.
- **Independent AI systems work, 2026:** built and operated workflows spanning research, content production, web publishing, QA, analytics and recurring operational tasks; automation handles reversible machine work while human approval remains at consequential release points.
- **RECON Plumbing NSW, March 2025–June 2026:** connected field-job knowledge with website content, search analysis and owner reporting. The existing case study records 639 search clicks and 47,814 impressions at 1.34% CTR in its historical Search Console dataset.
- **Podcast production support, 2025:** supported podcast production and media editing with Descript for editing and repurposing long-form content, and Audionomic for audio mastering.

Social Media & Community Manager — NVIDIA GeForce Philippines

June 2017–2023 · Contracted via First Tier Brands

- Managed editorial and community programs, including UGC, contributor rewards, seasonal activations and product-launch discussions.
- Facebook Page audience grew from 51K to 224.5K and community membership from 30K to 135K during tenure; Instagram reached 22K. Figures are operator-reported career outcomes, not independently audited or solely attributed.
- Coordinated influencer relationships, agency discussions, product seeding, publishing approvals and post-campaign reporting.
- Supported partner onboarding and field execution for the TNC Dayo Series, including Vertux, ASUS ROG and MSI across relevant legs.
- Prepared monthly performance reports and quarterly KPI proposals for agency and NVIDIA stakeholder review.
